

Jeremiah 29:1-9 has some good pointers! First understand "Christian America has changed it's address," we have new neighbors. They are not believers. We need to keep perspective that "they" are no longer our political opponents; "they" are our mission field. Second, plant gardens, as in work to become independent...and for quite a while at that! Christians need to look back to what it means to do business together with integrity. Third, encourage family. We must fortify the family unit, it will be our strength. Fourth, pray for our neighbors and leaders of this nation many of which do not understand our faith & convictions. They are not our enemies. Our arrogant sins are the enemy! Fifth, as this nation progresses (and some segments will) we will prosper. Those whose eyes are open will see God in ways and places we've never seen him before

If you look at the 28 principles through which our Constitution was drafted most of them no longer drive the governing authorities that define the laws of right and wrong.
